

TRANSMISSION OIL

# TRANS GL-4 75W-90

## Description

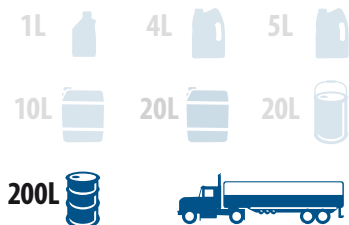

TRANS GL-4 75W-90 – highquality multigrade oil with high contents synthetic components. Used for lubricating of front-wheel drive cars transmissions and mechanical gear-boxes of all types for which oil on anti-welding properties must correspond on classification API to the class GL-4.

## Advantages

Transmission oil TRANS GL-4 75W-90 has the followings advantages:

- possesses good low temperature fluidity, allowing to provide the cold start of engine;
- excellent friction properties provide the smooth switching of transmissions and noiseless work;
- stably high workings descriptions at the different operation modes during the long-term period of time;
- the modern antiscoring additives package provides the high level of defence at the different loadings, including shock;
- provides the high level of protecting from a wear in the wide range of loadings;
- decreases expenses on repair because of gearings and bearings wear decline.

## Packaging types

## Accordances

Oil TRANS GL-4 75W-90 corresponds classes:

API GL-4 и SAE 75W-90

## Типичные характеристики

Kinematic viscosity at 100°C, mm <sup>2</sup> /s	15,5
Density at 20°C, kg/m <sup>3</sup>	889
Viscosity index	140
Flash point in open crucible, °C	215
Solidification temperature, °C	-32
