

YUKO BRAKE CLEANER

DESCRIPTION:

Highly effective cleaner for brake systems, wheel rims, and clutches. Penetrates working surfaces, removes stubborn contaminants, reduces heat and wear, increases performance, and extends the lifespan of parts. Neutral to rubber, plastics, and non-ferrous metals. Creates a protective water-repellent and anti-corrosion layer.

Method of Application: Shake the can. Spray the product from a distance of 20 cm onto parts and connections, allowing time for active penetration. Remove any excess with a dry cloth. Repeat treatment if necessary.

Storage Conditions: Keep away from direct sunlight and heating above 50 °C! Do not spray near open flames, hot surfaces, or other ignition sources. Do not inhale, disassemble, or deform! Dispose of the spent can as household waste! Store at temperatures from -20 °C to +50 °C. **CAUTION:** pressurized can! DO NOT PUNCTURE OR INCINERATE! FLAMMABLE! Guaranteed shelf life is 5 years from the date of manufacture, provided storage rules are observed and packaging remains intact.

BENEFITS:

- Effectively cleans brake systems, discs, and clutches.
- Reduces heat and wear, extending the lifespan of parts.
- Neutral to rubber, plastics, and non-ferrous metals.
- Creates a protective, water-repellent, and anti-corrosion layer.
- Increases the performance of the braking system.

TYPICAL CHARACTERISTICS:

Drying time at a temperature of 20 (±2) °C	hours, not more than 40-60
Excess pressure in the aerosol container at 20 °C	0.2-0.4 MPa / 2.0-4.0 kgf/cm ³
Mass fraction of non-volatile substances, %	not less than 20, not more than 45
Degree of evacuation of the aerosol container contents	% not less than 97
Relative density at 15 °C	1.0-1.3 g/cm ³
Mass fraction in the composition, propellant gas	10-30%
Mass fraction in the composition, mixture of organic solvents	70-90%

Packing	Vendor code	Barcode
Balloon tin 0.4l	025959	

STORAGE CONDITIONS:

Do not mix with solvents, automotive fluids. Protect from direct sunlight and precipitation in a closed container at a temperature not exceeding +60°C. In case of contact with skin or mucous membranes, rinse with water. Keep out of reach of children. Flammable. Do not pour into drains, water bodies or onto the soil. Dispose of in specially designated areas.
