

YUKO UTTO SP 10W-30

UNIVERSAL OIL FOR HYDRAULIC AND TRANSMISSION

SPECIFICATIONS:

SAE 10W-30 API GL-4

DESCRIPTION:

Universal Oil for Hydraulic Systems and Transmissions (UTTO - Universal Tractor Transmission Oil)

Designed for lubrication of gearboxes, final drives, hydraulic systems, wet brakes, and clutches in tractors, forestry, agricultural machinery, and construction equipment. It is ideal for use in demanding operating conditions.

Manufactured with high-quality mineral base oils and a multifunctional additive package.

CONFORMITY:

MAT 3540

BENEFITS:

- Excellent anti-wear properties extend component service life;
- Optimized friction characteristics ensure efficient performance of wet brakes and clutches;
- Reliable protection for gears and hydraulic systems across a wide temperature range;
- Can be used as a universal lubricant for both transmission and hydraulics;
- Ensures dependable operation of equipment in various conditions.

TYPICAL CHARACTERISTICS:

Kinematic viscosity at 100°C, mm ² /s	10.9
Density at 20°C, kg/m ³	870
Viscosity index	160
Flash point in open crucible, °C	210
Pour point, °C	-35

Packing	Vendor code	Barcode
Canister plastic 20l	023339	

STORAGE CONDITIONS:

Do not mix with solvents, automotive fluids. Protect from direct sunlight and precipitation in a closed container at a temperature not exceeding +60°C. In case of contact with skin or mucous membranes, rinse with water. Keep out of reach of children. Flammable. Do not pour into drains, water bodies or onto the soil. Dispose of in specially designated areas.
